

October 2022 BOH Report

School Health Unit

Vision & Hearing Screeners started in the schools

School Nurses and Managers continued to work diligently on immunizations and made great progress in increasing the compliance rate. The clinical nurse managers reviewed over 1100 new student immunization records. Over 200 notices were sent to parents of new students, and over 500 notices were sent to returning students due to immunization requirements when entering the next grade.

We worked in collaboration with the School Department to update the Medical Emergency Response Plans (MERP) for each school building.

The School Nurse Coordinator participated in the School Safety Committee meetings.

School Nurses and Managers continue to join the Maven webinars for updates when available to do so.

Our school nurses have welcomed UML nursing students into their offices as preceptors to them.

LPS SPED nursing shortage has been challenging for the School Department to maintain needed coverage.

School Nursing Services Provided	22-Sep	22-Oct	Total 21-22	YTD 21-22	YTD 22-23
Total Student Encounters
